Welcome to Calumet Air Force Station. It is my pleasure to welcome you and your family to the 665th Radar Squadron—the best radar squadron in the 24th NORAD Region. With a feeling of pride and satisfaction, I would like to introduce you to the units of this organization through this brochure. Your assignment here should be a happy one. As a new member of our team, we extend a warm hand of friendship to you. I feel that together we will help the 665th Radar Squadron continue to occupy the place of honor that it has achieved.

HISTORY OF THE 665TH RADAR SQUADRON

The 665th Aircraft Control and Warning Squadron was activated on 27 November 1950, by General Orders Number 28 of the Eastern Air Defense Force at its present location atop Mt. Horace Greeley on the Keweenaw Peninsula in Upper Michigan. The first radar equipment became operational on 24 April 1951. On 23 April 1954, the site was officially designated the Calumet Air Force Station, having previously been known as the Keweenaw Radar Site. In 1958, the 665th AC&W Squadron was integrated into the Semi-Automatic Ground Environment (SAGE) system of air defense. This system with its high speed computers could better cope with the modern high speed aircraft and missiles than the older manual system. In October 1969, the 665th Radar Squadron assumed BUIC III (Back Up Intercept Control) operations and became the 665th Air Defense Group. With this capability, the 665th ADGp was able to assume responsibility for the air defense of the 23rd Air Division at any time. On 1 January 1974, BUIC III Operations ceased and the base was then redesignated the 665th Radar Squadron. During this time, its primary mission was to provide surveillance data inputs to 23rd Air Division (AD) by means of search and height finder radar, ground-air transmitters receivers and other similar equipment. The height radar operation ceased 1 October 1979. On 13 July 1981, the 665th Radar Squadron transferred to the 21st AD through Special Orders, GB-46, from Headquarters Tactical Air Command. On 23 September 1983, the 665th Radar Squadron transferred to the 24th AD through Special Orders, GB-49, from Headquarters Tactical Air Command. The search radar operation ceased on 18 October 1983. The MPS-11, temporary search equipment, was commissioned on 1 December 1983 and decommissioned on 1 October 1984. The 665th Radar Squadron's latest search and height radar operations were both commissioned on 5 April 1985. The squadron celebrated its 35th birthday on 27 November 1985.
The cliff tops and rolling hills of Michigan's Keweenaw Peninsula seem dusted with copper on a crisp fall day. It's hard to believe that this quiet, rugged place - shaped like a thin, gnarled finger pointing into Lake Superior - is just a ghost of what it once was.

Six years before the 1849 California Gold Rush, the Keweenaw hosted America's first mining boom, fed on tales of fabulous finds. This part of Michigan would become the richest copper district on earth paying out far more than the famed Western gold fields ever did.

Today the peninsula is pock-marked by scores of stopped-up shafts, the source of a century of legends and hard fact, wealth and hard luck. The mines died, their increasingly impure copper shafts down too deep to make a healthy enough profit anymore.

Ghosts of towns built by the companies around each mine haunt the hillsides, gray hulks of houses scattered among foundations overgrown with weeds and grass. Their spirits are benign, however, more genteel than the shoot-from-the-hip image of Wild West ghost towns.

Tombstones in ramshackle graveyards remind of men and boys who died underground.

Ironically, the Keweenaw is a more beautiful place to visit than it was in mining's halcyon days. Back then, forest had been sacrificed for the billions of feet of lumber needed to prop up miles and miles of shafts, construct homes and work buildings, and fuel the stamping mills and smelters. Today, the forests have grown again.

The Keweenaw's ghosts are beginning to fade, though. "What's happening, and I feel bad about it, is that the older folks are dying off, and so is copper history," said Tom Litsenberger, a peninsula transplant, as he drove us through one shrunken town.

In the exquisite countryside towards the tip of the Keweenaw, though, the spirits linger near roads and trails where visitors come to sight see, hike, cross-country ski or fish. With a good imagination and sense of history, Copper Country ghosts can be summoned up.

All along the Keweenaw and out on Isle Royale-about 70 miles off the coast-unknown ancients began to mine surface copper 4,500 years ago.

They disappeared by 1200, but their spirits stayed. The Chippewa Indians, who arrived after the miners were gone, told early explorers of Missibizzly, a god who scolded them in a voice of thunder if they came too close to sacred copper boulders or spirit-haunted mines.

West from Copper Harbor along the Lake Superior coast, Eagle River was a prime watering hole for miners. Each nationality had its own spot to sop up the potent liquor called "forty-rod."

The man who fathered the copper boom drowned during a ferocious storm off Eagle River. Energetic Douglas Houghton had accompanied several expeditions to the Lake Superior area. When the Upper Peninsula was made part of the new state of Michigan in 1837, Houghton proposed to explore it for mineral wealth.

He submitted his understated report in 1840, but what people focused on was that in a single blast in a surface outcropping, Houghton had thrown out a 40-pound chunk of solid copper. Prospectors began dribbling in during 1841; the real rush began in 1843.

Houghton continued his explorations, and drowned when his boat was swamped in October 1845. A small monument honors him in Eagle River, and the Keweenaw's biggest city is named for him.

Cliff, Central and Phoenix were some of the early mines, lined up along a ridge that runs like a backbone down the peninsula.
Central Mine was abandoned in 1898. Its town had a population around 1,250 and was known as the Duchy of Cornwall. (The Cornish were the first to come to the Keweenaw mines. Eventually, much of Europe would be represented—Finland, Ireland, England, Germany, Italy, Sweden, Croatia, Slovenia, Austria, Poland and elsewhere.)

Today, a few weathered houses remain. A plain mustard-colored church with brown trim opens for services once a year, when mining folks and visitors hold a reunion.

Peeling Phoenix Church, built in the 1860s, used to be up by the mine, but was moved downhill along a main road to await restoration. Nearby, two tiny miner's houses have been transformed into cute summer homes.

Tombstones at nearby Evergreen Cemetery tell sad tales. Though the copper mines were far safer than coal mines ever were, miners died of fire and rock falls and mysterious air blasts.

"Henry Hart, Killed at Copper Falls mine July 15, 1872, aged 21 years," reads one. "William James Trebilock, son of Narmaduke and Mary Trebilock, died at Cliff Jan. 14, 1864, Ac. 10 yr's & 2 m's," mourns another.

Visitors glimpse life underground at the Arcadian Copper Mine near Hancock and more recently reopened Delaware Mine on the peninsula.

The Delaware once went down 1,400 feet in nine or more levels. Eight of those nine are under water now, and a flashlight plays eerily on the walls of the No. 1 shaft as it plunges below.

"Old Reliable," they called the Quincy Mine at Hancock. It was the Keweenaw's deepest, angling 9,260 feet to a vertical depth of more than a mile. Above ground remain its shaft house and hoist—landmarks high above Portage Lake. The hoist, used from 1920 to the 1930s and still on display, was the world's largest and could raise 10 tons of copper ore at once.

Calumet & Hecla, the world's biggest mining company in its heyday, headquartered at Calumet. C&H owned most of this part of the Keweenaw at the time it went out of business. The company built hundreds of houses for employees to rent, a library and a company hospital.

One of its buildings is now a museum. Another may become a shopping center.

The Calumet Theater is a monument to the community's wealth at the turn of the century. In 1898, the village council had so much money that it needed to spend—and there were already plenty of parks, police, firefighters, garbage wagons and library books.

So it built a $70,000 opera house, which hosted the likes of Sarah Bernhardt, Lillian Russell, Lon Chaney, Houdini and Madame Modjeska, a brilliant tragic actress.

Two mass graves in Lake View Cemetery, near Calumet tell a tale of true-life tragedy and bitterness that long-time Keweenawans remember and debate today.

Despite the ghosts of its history, the Keweenaw Peninsula itself is far from faded. Plenty of good lodges, motels, and excellent restaurants greet visitors who come to fish, hike, enjoy fall foliage or winter sports.

Though there's a church for sale and some closed-down shops in Calumet, the Repertory Theater, Detroit Symphony visits and other cultural activities go on. Old houses tumble down in the ghost towns; others are loved by the long-timers who lived in them, or the newcomers who've fixed them up as summer homes.

As a Keweenaw-born professor says, "Today you must be a working-class entrepreneur to survive. It's the ones who couldn't make it here who've had to go elsewhere."

WELCOME!

The Keweenaw Peninsula has enjoyed a long and excellent relationship with the fine men and women of the Calumet Air Force Station.

VILLAGE OF CALUMET
VILLAGE OF LAURIUM

Calumet—Laurium—Keweenan Chamber of Commerce
Chamber Office: 101 Red Jacket Rd., Calumet—Phone 337-4579
OUR MISSION

The mission of the 665th Radar Squadron is to provide long range surveillance radar data and ground-air-ground communications in support of the Air Defense role of the 24th NORAD Region and 24th Air Division (TAC) at Griffiss Air Force Base, New York. The surveillance and communication subsystems include the AN/FPQ-91A Search Radar, AN/FPQ-116 Height Finder Radar, AN/FYQ-47 Common Digitizer, AN/GRT-22 and AN/GRR-24 UHF radio transmitters and receivers, AN/GRR23 and AN/GRT 21 VHF radio transmitters and receivers, AN/GRC-171 multi channel UHF transmitter and receiver, UPX-14 and UPX-21 Selective Identification Feature Interrogator Set, UPA-62 Planned Position Indicator, and the AN/GPA-124 Coder-Decoder Group.

CHAIN OF COMMAND

Headquarters TAC, Langley AFB, VA

First Air Force, Langley AFB, VA

24th Air Division, Griffiss AFB, NY

665th Radar Squadron, Calumet AFS, MI

With Detachment: OL-C, Det 8 1911 CS, AFCC

LOCATION

Calumet Air Force Station is located 22 miles northeast of Calumet, Michigan atop Mt. Horace Greeley in the Keweenaw Peninsula.

TRAVEL ROUTE

When driving north from Houghton/Hancock, follow US 41 north until the Gratiot Lake and Calumet AFS access road turn off on the right, approximately 30 miles from Houghton/Hancock. Follow the access road three miles, then turn left at the Calumet AFS sign.

The short distance to the site is marked by a rather steep incline. Please use a lower gear and lower your speed. Be especially cautious when the road is covered with ice and snow. Although the distance is roughly 35 miles to the site, winter driving necessitates being prepared with a full tank of gas, blankets, extra clothing, food, candles or other sources of heat, sand and a shovel. Roads in the upper peninsula are kept relatively clear, but if you arrive during the months of October through May, it is also advisable to have snow tires put on your automobile. Please keep safety in mind while driving to Calumet Air Force Station.

Commercial bus transportation to the Calumet area is provided by Greyhound. Northwest Airlines flies into Houghton County Memorial Airport, Hancock, MI. Newly assigned personnel arriving in the area may obtain transportation to the station by calling the station or the 24 hour contact point at 337-4200, and asking for your sponsor.
CLIMATE

The Keweenaw area's climate is ideally suited for both winter and summer activities for the total four-seasons effect. Winters are generally long, cold and snowy. The snowfall ranges from 80 to 250 inches per year and snow usually covers the ground from mid-November until late April. Temperatures sometimes dip down as low as the minus 20 degrees range and lower, though the average winter temperature range is around 28 degrees.

Summer days are generally warm and long. Thunderstorms are quite common during the summer months. Daylight during most of June and July will last almost 16 hours. The summer temperature is approximately 65 degrees. A typical summer night has a minimum temperature of 50 to 55 degrees range and a daytime high between 70 to 75 degrees. The yearly mean temperature of the Copper Country is about 39 degrees.

TOUR OF DUTY

Due to the remote location inadequate commercial facilities in the immediate vicinity, this is a CONUS isolated assignment. The minimum duty tours are as follows: 24 months if accompanied by dependents or 15 months if unaccompanied.

PROCESSING

Incoming personnel who report to the squadron during the normal duty hours should report to the Administration Office (Bldg 1) in uniform for processing instructions. Personnel reporting after normal duty hours or on weekends and holidays will call 337-4200 and ask for the 24 hour contact personnel and your sponsor. All personnel will inprocess at this station.

DUTY HOURS/UNIFORMS

A twenty-four hour operation is maintained each and every day. Normal duty hours are from 07:30 A.M. to 4 P.M., Monday through Friday. Shift workers are scheduled by their respective duty sections.

Any authorized uniform combination may be worn at anytime. Parkas and other winter clothing issue may be worn from 1 October through 1 May.

STATION CHAPEL

The station Chapel, located in building 20, serves at the center of many varied religious activities at Calumet Air Force Station. Currently an auxiliary chaplain visits the station weekly for consultation and is on call at all times for counseling and other religious needs. Worship services and Sunday school hours are posted in the chapel.

MAIL ROOM

Mail service is provided regularly with varied scheduled delivery times due to weather and summer tourism. All personnel residing on station are assigned a post office box prior to their arrival. For the convenience of all personnel, the postal carrier will accept packages for mailing. The mail room is located in the Squadron's Administration Office lobby entrance.
SNOW BIRD INN

Our outstanding Food Service Personnel consistently provide us with that high morale factor: well-prepared meals, justifiably the best food in the Copper Country. Meals are served at the following times: breakfast 6:30 to 8a.m., lunch 11:30a.m. to 1:00p.m. and supper 4 to 5p.m. Hours for Saturday, Sunday and holidays are: breakfast 7:30 to 12:00 and dinner 2 to 5p.m. Box lunches are available for night shifts. Families are welcome for all meals.

BARBER SHOP

A Barber Shop is available to all station personnel in building 45. Appointments may be made on the sign up sheet posted on the door.

COMMISSARY

Our Commissary is a branch of the K.I. Sawyer AFB Commissary and maintains an ample stock of necessities such as staples, frozen food, frozen meats, dairy products and produce. Special items such as beef sides, hind and front quarters, etc., may be ordered. Hours of operation are Tuesday, Wednesday and Friday from 9:30a.m. to 4:30p.m., Thursday from 12 to 5:00p.m. and Saturday from 9a.m. to 3p.m. The commissary is closed Sunday, Monday and holidays.

STATION EXCHANGE

The Air Force Exchange Service operates a small, well-stocked store on station. A good line of items is carried with the emphasis placed on the immediate necessities. We receive all our merchandise from the Main Exchange and Clothing Sales store at K.I. Sawyer AFB. Additional merchandise can also be obtained by special ordering. Special request can be made to pick up specific items from the Main Exchange on a regular supply run. The store is located in the same building as the Administration Office, Building 1. The Exchange operates Tuesday through Friday from 11a.m. to 4:30p.m. and Saturday from 10a.m. to 3:00p.m. It is closed Sunday, Monday, and holidays.

BACHELOR OFFICER QUARTERS (BOQ)

Living quarters for officers are available on station in the BOQ. Each unit consists of a comfortably furnished livingroom, bedroom, and private bath. The BOQ also has a television, laundry facilities and kitchen.

LEGAL ASSISTANCE

Legal Assistance for all personnel requiring aid in household claims, wills, debts, contracts, tax problems, and other matters may be obtained from the K.I. Sawyer Air Force Base Legal Office. Personnel may obtain assistance during normal duty hours or in the case of an emergency, may receive legal services at any time.

CONSOLIDATED OPEN MESS

All permanent party personnel (officers and airmen) are admitted as members. Frequent functions are held for the enjoyment of all members and their dependents. Along with the bar, there is a dining room with a varied menu, a schedule of parties, dances, and other activities in store the year round. The
MEDICAL AID STATION & SECURITY

MOTOR POOL
COM Club is open Monday through Wednesday from 4 to 6 p.m., Thursday and Friday 4 to 12 p.m., Saturday 2 to 12 p.m., and Sunday and holidays 4 to 8 p.m.

SERVICE STATION

Both regular and unleaded gasoline may be purchased on station in front of building 14. The gas pumps are open five days a week with the same operating hours as the Exchange. Such items as oil, antifreeze, additives and spark plugs are sold at the Exchange.

CHECK CASHING

Subject to availability of cash, personal checks may be cashed at the Exchange or COM Club. Checks may be cashed at the commissary but only for $5.00 over the amount of purchase.

MEDICAL AID STATION

The Medical Aid Station is located in building 40 and provides medical care for both military personnel and dependents. Bonafide emergencies will be honored any time of the day or night by the medical technician on duty. After duty hours, the medical technician on call can be located by dialing 337-4200 and asking the operator on duty for assistance.

Each patient, whether active duty or dependent, is required to contact the medical aid station prior to seeking medical treatment at other facilities, particularly civilian physicians. In an extreme emergency, contact with the medical aid station may be delayed until necessary medical care has been obtained.

Those individuals, military or dependents, who require outpatient medical consultations, physical examinations and diagnostic procedures such as laboratory tests and X-rays not available at the Medical Aid Station will be referred by a medical technician to our contract physician or the USAF Hospital, K.I. Sawyer AFB, Michigan.

Inpatient dependent medical care provided by civilian health care agencies and physicians is the financial responsibility of that individual. Portions of costs, however, of such treatment may qualify for payment or reimbursement under the CHAMPUS Program. Medical technicians assigned to the Medical Aid Station can provide additional advice and information. Military personnel and their dependents may also request medical or surgical appointments at USAF Hospital, K.I. Sawyer AFB, MI, our military support facility.

Most prescriptions written by civilian physicians can be filled by the Medical Aid Station. If a particular drug is not immediately available at the Medical Aid Station, it may be obtained from the support base.

NOTE: Families with severe, chronic medical problems should not accept assignment to this installation, as medical facilities do not exist for treatment and care of patients in those categories.

DENTAL CARE

A completely equipped and up-to-date dental clinic is located on station in building 40, the same building as the Medical Aid Station. The clinic is operated by a military dentist and his assistant, who provide dental care on a quarterly basis for active duty members of the Air Force. Military family
members are authorized dental care on a space available basis. Every military member must visit the clinic for the required annual dental examination. This includes a thorough examination, X-Ray and cleaning. Should further appointments be necessary, they are set up immediately. Emergency dental problems will be referred by the medical technicians on duty to the nearest appropriate military health care facility.

</table>
LIBRARY

The station has a small but well equipped library located in building 45. Books are drawn from a rotating stock to insure variety. There is a particularly fine collection of children's books and popular magazines. A good selection of best sellers are offered with a fiction collection of westerns, mysteries, science fiction and romance. There is also an up-to-date reference library and an excellent selection of popular rock, country, and soul LP records. Library privileges are extended to all Air Force personnel, their family members and Department of Defense civilian employees. Hours of operation are posted. Both browsers and borrowers are welcome. The volunteer librarian will do his/her best to help you find your choice of reading material.

GROUND SAFETY

We have an active ground safety program, and we are vitally interested in YOUR SAFETY. It is everyone's responsibility to be safety conscious and practice the art of accident prevention. Due to the adverse road conditions in the area, safe and defensive driving practices are constantly stressed. Seat belts are mandatory in the state of Michigan. Seat belts are required for the front seat of all automobiles before they can be registered on station. Michigan law also states that each driver transporting a child in a motor vehicle shall properly secure each child in a safe child restraint system if the child is under the age of four. A child under one year of age is to be buckled in a safe child car seat regardless of where he/she rides in the car. A child one year of age but less than four years of age, will also be required to be in a safe car seat if they are riding in the front seat; if they are riding in the back seat, use of the seat belt alone is permitted.

EDUCATION SERVICES

Current catalogs and information concerning military sponsored educational programs are available. Among the broad selection offered are courses from the Extension Course Institute (ECI). College level courses are available through Michigan Technological University and Suomi College and are conducted in Houghton/Hancock and are open to military personnel and their dependents. Courses are also offered on the station (night classes) with Suomi College. The elementary schools, junior high, and high schools are located in Calumet. Transportation is provided by school bus. Although we have a lot of snow fall during the winter seasons, the school children hardly ever miss any school.

CERAMIC SHOP

The Ceramic Shop is located in building 20 and is excellently equipped with molds and supplies for making ceramic pieces. Hours of operation are as posted.

FAMILY SERVICES

Family Services at Calumet Air Force Station is located in Building 20. A loan closet has pots, pans, dishes, silverware and other household goods. The following information is also available: tourist and sightseeing brochures, sponsor kits (forwarded to incoming personnel), Air Force bases and some Army posts are on file and may be read at our office. Many brochures are available for short loan.

The personal affairs orientation designed for military dependents is held
approximately once a year. You are urged to attend to keep current on personal affairs, privileges and base facilities that serve you. All volunteers must attend the orientation. Family Services, a worldwide Air Force organization, is here to serve you and is as effective as the interest shown by the volunteers who work within the program. The office is open approximately four hours each week and volunteers are on call at all times.

AIRMEN'S DORMITORIES

After signing in, you will be assigned a room in one of the Squadron's dormitories. Rooms vary in size, with an average room approximately 10' X 17'. All rooms are furnished with a bed, chest of drawers, night stand, lamp, desk, chair and wall-to-wall carpet. All dorms have laundry facilitlities, a day room with a color TV, and kitchen.

SPECIAL SERVICES

ATHLETIC FIELD/TENNIS COURT

The athletic field and tennis court are located between the COM Club and Gym Facility. The area is used for summer league softball games and squadron field days.

RECREATION SUPPLY

Recreation Supply is located in Building 14. Equipment on hand for check out includes such items as small boats, motors, camper trailers, tents, camping equipment, skis, ice skates, fishing rods and reels, snowmobiles plus much more. A nominal fee is charged to defray expense and upkeep of the equipment. Hours of operation are Monday through Friday 7:30 a.m. to 4:00 p.m. Check in/out of equipment: 2-4 p.m. Monday through Friday.

GYM FACILITY

The Gym Facility, Building 14, provides an area for many activities. At other times it is used for special MWR events. It houses a racquetball court, a basketball court, weight room with a modern universal weight machine, two 200 pound lift sets, sauna, shower and lockers. It is open 24 hours a day, 7 days a week.

GOLF

There are two golf courses in the neighboring area, each less than a 30 mile drive from the station. Golf clubs are available through special services.

MOVIES

The theater is located in Building 20. Current (AAFES) movie releases are shown at no cost. A different film is shown on Thursday and Saturday at 6:30 p.m. This variety of entertainment is provided to the entire family through G, PG, and R rated films. Coming attractions are posted on the squadron bulletin board located in Building 1 and the Station Exchange.
BOWLING

We have a two lane alley equipped with AMF automatic pinsetters. The alley meets ABC standards and all leagues are sanctioned by the ABC/WIBC. Experience is no barrier since all leagues are handicap. Active leagues include: Women's, Men's and Mixed Doubles. The bowling alley is open everyday during the winter bowling season and closed during the summer.

CAMPING/FISHING/HUNTING

The area is ideal for all of these. State parks, lakes and campsites are plentiful. The many rivers and streams in the area are abundant with Coho Salmon, Northern Pike, Lake Trout and many others. Deer and bear are the main game.

YOUTH CENTER

The Youth Center is located in Building 70. There are numerous activities available such as dances, game nights and other special functions. In addition to table games, ping-pong, foosball games, etc., are available.

VETERINARIAN

The K.I. Sawyer AFB veterinarian visits Calumet AFS quarterly for routine animal care and immunizations. Appointments may be made by calling extension 333. Emergency treatment for pets is available in the local area. All pets must be registered with security police, vaccinated by a veterinarian and leashed both on base and in the housing area.

SECURITY POLICE

VEHICLE REGISTRATION

All military and civilian personnel assigned to Calumet Air Force Station who operate a privately owned vehicle must have their vehicle registered with Security Police. Upon reporting to Security Police, Building 40, personnel will certify their compliance with state insurance laws on AF Form 533.

PRIVATELY OWNED FIREARMS

All privately owned firearms, maintained by personnel who reside in the dormitories on Calumet AFS, must be registered with Security Police within 72 hours after arrival. Michigan State laws requires that no person shall purchase, carry or transport a pistol without first having obtained a license. Members of the Armed Forces have five days in which to license a pistol after their arrival into the state. In addition, no firearms may be stored in the barracks. The Security Police Arms Room has been designated the storage facility for firearms owned by personnel residing in the barracks.

SPEED LAWS

The speed limits on site are clearly posted and strictly enforced. During the winter months, road conditions will dictate lower speeds. The speed limit in the housing area is 15 miles per hour; please exercise extreme caution at all times.

approximately once a year. You are urged to attend to keep current on personal affairs, privileges and base facilities that serve you. All volunteers must attend the orientation. Family Services, a worldwide Air Force organization, is here to serve you and is as effective as the interest shown by the volunteers who work within the program. The office is open approximately four hours each week and volunteers are on call at all times.

AIRMEN's DORMITORIES

After signing in, you will be assigned a room in one of the Squadron's dormitories. Rooms vary in size, with an average room approximately 10' X 17'. All rooms are furnished with a bed, chest of drawers, night stand, lamp, desk, chair and wall-to-wall carpet. All dorms have laundry facilities, a day room with a color TV, and kitchen.

SPECIAL SERVICES

ATHLETIC FIELD/TEENNS COURT

The athletic field and tennis court are located between the COM Club and Gym Facility. The area is used for summer league softball games and squadron field days.

RECREATION SUPPLY

Recreation Supply is located in Building 14. Equipment on hand for check out includes such items as small boats, motors, camper trailers, tents, camping equipment, skis, ice skates, fishing rods and reels, snowmobiles plus much more. A nominal fee is charged to defray expense and upkeep of the equipment. Hours of operation are Monday through Friday 7:30 a.m. to 4:00 p.m. Check in/out of equipment: 2-4 p.m. Monday through Friday.

GYM FACILITY

The Gym Facility, Building 14, provides an area for many activities. At other times it is used for special MWR events. It houses a raquetball court, a basketball court, weight room with a modern universal weight machine, two 200 pound lift sets, sauna, shower and lockers. It is open 24 hours a day, 7 days a week.

GOLF

There are two golf courses in the neighboring area, each less than a 30 mile drive from the station. Golf clubs are available through special services.

MOVIES

The theater is located in Building 20. Current (AAFES) movie releases are shown at no cost. A different film is shown on Thursday and Saturday at 6:30 p.m. This variety of entertainment is provided to the entire family through G, PG, and R rated films. Coming attractions are posted on the squadron bulletin board located in Building 1 and the Station Exchange.
BOWLING

We have a two lane alley equipped with AMF automatic pinsetters. The alley meets ABC standards and all leagues are sanctioned by the ABC/WIBC. Experience is no barrier since all leagues are handicap. Active leagues include: Women's, Men's and Mixed Doubles. The bowling alley is open everyday during the winter bowling season and closed during the summer.

CAMPING/FISHING/HUNTING

The area is ideal for all of these. State parks, lakes and campsites are plentiful. The many rivers and streams in the area are abundant with Coho Salmon, Northern Pike, Lake Trout and many others. Deer and bear are the main game.

YOUTH CENTER

The Youth Center is located in Building 70. There are numerous activities available such as dances, game nights and other special functions. In addition to table games, ping-pong, foosball games, etc., are available.

VETERINARIAN

The K.I. Sawyer AFB veterinarian visits Calumet AFS quarterly for routine animal care and immunizations. Appointments may be made by calling extension 333. Emergency treatment for pets is available in the local area. All pets must be registered with security police, vaccinated by a veterinarian and leashed both on base and in the housing area.

SECURITY POLICE

VEHICLE REGISTRATION

All military and civilian personnel assigned to Calumet Air Force Station who operate a privately owned vehicle must have their vehicle registered with Security Police. Upon reporting to Security Police, Building 40, personnel will certify their compliance with state insurance laws on AF Form 533.

PRIVATELY OWNED FIREARMS

All privately owned firearms, maintained by personnel who reside in the dormitories on Calumet AFS, must be registered with Security Police within 72 hours after arrival. Michigan State laws requires that no person shall purchase, carry or transport a pistol without first having obtained a license. Members of the Armed Forces have five days in which to license a pistol after their arrival into the state. In addition, no firearms may be stored in the barracks. The Security Police Arms Room has been designated the storage facility for firearms owned by personnel residing in the barracks.

SPEED LAWS

The speed limits on site are clearly posted and strictly enforced. During the winter months, road conditions will dictate lower speeds. The speed limit in the housing area is 15 miles per hour; please exercise extreme caution at all times.
HOUSING

There are 45 government single family housing units on station which offer convenient, comfortable living for Calumet APS families. Each unit has a large one car garage. All homes have a stove, refrigerator, garbage disposal, washer and electric dryer hook-ups.

Eligible personnel may obtain government housing after a waiting period that ranges from a few days to, under unusual circumstances, several months. Due to the unpredictable changes in the availability of housing, incoming personnel are encouraged to submit an advanced housing application, DD Form 1746, or confirm living accommodations through their sponsor before moving their families.
